To whom it may concern

I am writing to confirm that I believe that UK Skills and EEF's proposed project to implement the Multiple Intelligence Analysis Tool (MIAT) in Gujarati schools will greatly benefit the students and the community and I am writing to express my full support for their proposal.

It has been demonstrated by the extensive take up of the MIAT that it provides a rich and descriptive source of information which matches a student's intellectual strengths to enjoyable, rewarding and highly motivating career paths.

At the Deputy High Commission, we are pleased to have worked with UK Skills and its Indian affiliate Education for Employment Foundation for a number of years and I look forward to seeing the benefits of the MIAT approach being delivered in Gujarat.

Yours faithfully,

Geoff Wain
Deputy High Commissioner to the States of Gujarat and Rajasthan
