You can purchase SchoolVue for a

one year license for as little as …….

……… ……… "Your company is the greatest. I can't imagine anyone living without you." —Very smart customer
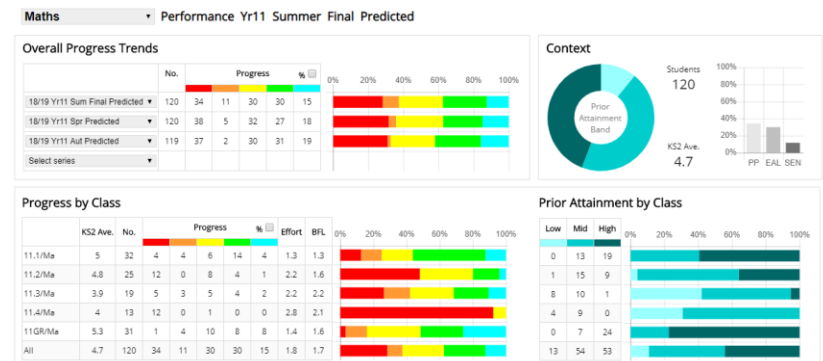

What is SchoolVue?

SchoolVue is the easiest to use, online, flexible data analytics tool for all schools.

SchoolVue allows you to present a variety of student information in a clear, accurate and effective way on a day to day basis that will drive school performance.

Complete redesigned and rebuilt for India, SchoolVue is available 24/7 from any internet-enabled device anywhere.

You will find easy to use online tools and reports to understand and use student information being collected. This leads to better strategic decisions at school, in classroom and for students.

Why Use SchoolVue

The Problem – The Challenge:

 "The intelligent use of data affects the work of all professionals involved in education. There can be no going back to the days when decisions were made on hunches and anecdotal information But we have to present and explain data in ways which inspire trust and confidence, and lead to appropriate choices and judgements being made Using data, improving schools is intended to help everyone involved in school improvement achieve this goal." - Christine Gilbert, Her Majesty's Chief Inspector

Our Vision – Our Answer:

SchoolVue is a system & service to schools, students, parents and regional education authorities. It is a sophisticated, but easy to master, online tool that gives Schools the power to monitor and understand individual and group progression.

We know that interpreting and sharing data is key to driving performance.

Our services are life-changing, giving you real information that shapes decision making.

Developed in the UK but tailored for India and Indian schools, SchoolVue, is a unique flexible and all-powerful data analytics tool for schools. It allows you to present a variety of student information in a clear, accurate and effective way, on a day to day basis, that drives school performance.

What SchoolVue does

User-friendly online dashboards and tools allow members of staff to quickly find information about school, class or students that they are looking for.

Schools can customise SchoolVue to analyse and represent a wide range of student information being collected in their Management Information System.

'Monitor, manage and understand school and student performance at the touch of a button' – our 21st Century Approach.

Customize in Almost No Time

Many schools collect engagement in learning grades such as effort, behaviour, classwork etc. This information can be anaylsed and displayed alongside subject performance grades and attendance to present an accurate picture of how a student is performing over time. Furthermore, you can use this information to define or enhance current student strategies and inter

Additionally, the class view and seating plan tool within SchoolVue allow teachers to display or print this information and identify appropriate support for the right pupils. Subject and school wide actions for learners can be recorded and made highly visible throughout SchoolVue.
